School is out and although the weather has not been representative of it, summer is here. The Recreation staff has been very busy over the past few months setting up our youth and adult programs and events which can be viewed on our website and in our Summer Activity Guide. Marketing these programs and events is always a challenge and we are getting closer to having a more simplified system in place. However, we would still like to ask for your help in spreading the word of our programs and website.

We apologize for the lack of communication with the News Letter and the late update for summer programs. Most of our energy and man hours have been tied up with programming, scheduling, and dealing with the weather. We are now in a position to keep the news letter updated and sent out on a regular basis, along with periodic updates on special events and programs. The 2010 Summer Activity Guide was distributed to the schools and sent home with all of the students in the area. The activity guide can also be picked up at City Hall and the McCall Public Library if you did not receive it. We thank you for your support and patience and look forward to seeing an active community throughout the summer months.
